		<b>Grad. Credit:</b>	3 credits from Framingham State College for an additional \$195, payable at the first class

**Course Description:** Teaching is about reaching kids, intellectually and emotionally. Technology powers up teaching and provides new possibilities to reach and teach, especially those students at the ends of the learning continuum, those who have been either unmotivated or unchallenged by traditional teaching. This presentation will model the use of wikispaces, ipod/itouch, surveys, and web 2.0 tools like online portfolios and collaborative documents as formative assessment tools and opportunities for students' meta-cognitive self-assessment and reflection that individualize learning.

**About the Instructor:** Deborah Peterson is an experienced teacher who has also served as both a team leader and a curriculum coordinator while at Thurston Middle School in Westwood. She has used these leadership opportunities to open doors for all students. Ms. Peterson graduated from the University of New Hampshire summa cum laude, and earned a Master's Degree in Curriculum and Instruction from the University of New Hampshire School of Education. She has been a speaker for both NELMS and ASCD and has served as a consultant to the Millis Public Schools.
