Location:	TEC Professional Development Center		

Course Description: Podcasting is a wonderful way of allowing children to share their work and experiences with a potentially huge audience over the Internet. A podcast is like a radio show. However, instead of being broadcast live, a podcast is recorded and then distributed over the Internet, so that you can listen to it whenever you please. Come explore the available podcasts on the Internet and learn how to make a simple podcast with your students. This course is updated for iLife 09.

About the Instructor: Rita Partridge is an Instructional Technology Specialist who has worked with students and teachers for more than 20 years. She has worked for educational publishers as a researcher and trainer for nationally published textbook programs. Rita has also taught graduate level courses as an adjunct faculty member for Lesley University in their Instructional Technology Master's Degree Program. Currently, Rita is an Instructional Technology Specialist in the Wayland Public Schools.
