Course Description: This workshop is for educators who want to “flatten” their classroom to include global collaboration in their curriculum. Discover the “how” and “why” of connecting your students to the world and learn about tools such as ePals, Skype, Ning, Elluminate, and wikis. The workshop emphasizes innovative ideas for building community and collaboration with Web 2.0 technologies and employs a hands-on approach, with examples highlighting both inquiry-based and research-oriented technology applications.

About the Instructor: Tom Daccord is co-Director of EdTechTeacher, co-author of Best Ideas for Teaching with Technology: A Practical Guide for Teachers by Teachers and author of The Best of History Web Sites. A veteran “laptop teacher” who instructed in a wireless laptop environment for seven years, Tom has been featured in the *Boston Globe* (“Making Tech Connect,” December 29, 2003) for his contributions to teaching with technology.

*Cancellations: Notice must be given at least **ten (10)** business days prior to the start of program.
